Resumen Profesional

I am a front-end developer with over 10 years of experience, specializing in the Angular framework from version 4 to 18. I excel at creating modern and intuitive web applications. I focus on writing quality code and enhancing user experience. My skills include advanced front-end work and some back-end implementations. I am dedicated to excellence and innovation. I look forward to achieving success with a dynamic team.

Experiencia Profesional

Procetti | Sr. Frontend Developer

August 2024 – Actualidad | Remote, México

-I Optimized the structure from the project, y lead the reorganitation from the project , I create a new folder structure specified for pages, guards, enums,interfaces, helpers, common components, pipes. Services, improved the clarity and efficense int the code.

-Improve the performance code, I eliminated redundancies in the code, achieving a significat increase in the stability and overall performance of the application

-Refactor the interface and methods, restructure and rename interfaces, enums, cosnstans, methods and functions, ensuring that each element followed the single responsibility principle and organizing them in a modular way

-Technology update: I migrated the application from Angular v17 to Angular v18, ensuring it aligns with the latest features and security improvements.

-Improve the user experience: I rebuilt the UX at the code level to optimize usability and performance, offering a more fluid and efficient user experience

Neoris | Sr. Frontend Front end developer
April 2022 - March 2024

-I developed modules for the warranty system 'SIGADE' for Telcel, using Angular and Angular Material.

-I implemented account signing for users with different roles and inter-module information analysis.

-I created a table with pagination and filters to enhance data management.

-I worked on the Cemex Project and implemented new features in the cement area.

-I developed features for the UK, GB, and CZ in the delivery process for online orders.

-I configured the settings using predefined objects to edit features for different countries, ensuring coherence with patterns and applying best practices for development

-I use Angular v7 and NGRX to manage the state in the app, including actions, reducers, selectors, and effects. I manipulate data using RXJS for an optimized user experience. I actively participate in developer sprints, performing code reviews and regularly reviewing user stories to maintain project progress.

Nova Solutions Systems | Sr. Frontend Developer
Nobember 2021 - April 2022

- I participated in migrating the Bursanet Project from Actimver to AngularJS and then to Angular 12.

- I developed components and modules using Angular services.

- I worked in an Agile team (SCRUM) with short sprints, achieving visible results.

Relappro | Frontend Developer
October 2017 - September 2021

- I developed the administration panel for advertisements and Google tags.

- I maintain internal information, such as agencies, campaigns, and revenue.

- I create scripts written in TypeScript to build tags on publisher pages.

Simetrical | Web developer
March 2016 – October 2017

- I developed frontend and backend systems using the Symfony PHP framework and JavaScript.

- I worked with Jira to track issues and sprints, and I used Bitbucket to save repositories.

Skills

Frontend: Angular (v4 - v18), AngularJS, HTML, CSS3, SCSS, SASS, JavaScript, TypeScript, RxJS, NGRX, Angular Material, Bootstrap, Tailwind, jQuery.
Backend: PHP, Node.js, Express, NestJS, TypeORM, Symfony.
DevOps: Docker, Git, GitLab, Bitbucket, NPM.
Herramientas: Visual Studio Code, Figma, Jira, Azure, Ubuntu.

Academic Training

Universidad Tecnológica Metropolitana
Técnico Superior Universitario en Artes Gráficas (2008-2010)
Técnico Superior Universitario en Multimedia y Comercio Electrónico (2011-2013)

Certifications and courses

Docker, from Beginner to Expert
Visual Studio Code: Improve Your Coding Speed
ReactiveX - RxJs: From Zero to Details
Advanced Angular: Take Your Basics to the Next Level - MEAN
NGRX in Angular: From Basics to Practice

Languages

Spanish: Native
English: Medium (Improving)
